

Wassim Darwish

Passport: N014581360 | **Work permit:** Syrian | **Date of birth:** 10/07/1989

Place of birth: Al-Swedia, Syria | **Nationality:** Syrian | **Phone:** (+963) 997048181 (Mobile) |

Email: wassimdarwish89@gmail.com

Address: Syrian, Al Sweida, 016, Al Sweida, Syria (Home)

● ABOUT MYSELF

Full-stack developer with 6+ years building scalable web and blockchain-integrated applications across fintech and Web3. Experienced connecting frontend and backend systems to on-chain infrastructure — wallet integration, contract interactions via ethers.js/web3.js, and DeFi reward and staking flows — alongside secure transaction processing, real-time data sync, and multi-stakeholder platforms (React, Node.js, NestJS, PostgreSQL/Supabase). Currently leading a frontend engineering team, with strong Agile delivery and cross-functional collaboration with backend, product, and (on Web3 projects) smart contract engineers. Focused on building transparent, secure, and reliable platforms that scale.

● TECHNICAL SKILLS & TOOLS

Frontend

React.js, Next.js, Redux, JavaScript, HTML5/CSS3, Responsive UI Development, Design Systems & Component Libraries, UI/UX Design, Site Mapping & Application Architecture

Web3 & Blockchain

ethers.js, web3.js, MetaMask, WalletConnect, DeFi Staking & Reward Flows, Cross-Chain Data Handling

Mobile

React Native, **Flutter**, Cross-Platform App Development, iOS & Android Development, Push Notifications

Tools & Practices

Git, Performance Optimization, Root Cause Analysis & Debugging, Cross-Browser Compatibility, CMS Administration, Client Training & Support

AI-Assisted Development

Skilled in embedding AI tools (Claude, ChatGPT, GitHub Copilot) into the daily development workflow to accelerate delivery without compromising quality — using them for rapid prototyping, code generation and review, debugging, test-case creation, and technical documentation. Comfortable with prompt engineering and structuring AI-assisted pipelines (including RAG-based approaches) to solve real product problems, and proactive about evaluating new AI tooling to keep the team's workflow efficient and up to date.

Backend & APIs

Node.js, NestJS, RESTful API Design, Authentication & Authorization, Security Best Practices, Discord Bot Automation

Databases & Data

PostgreSQL, Supabase, Database Schema Design, Real-Time Data Synchronization, Data Architecture & Analytics

Leadership & Collaboration

Team Leadership & Mentoring, Code Reviews, Cross-Functional Collaboration, Stakeholder Management, Agile/Scrum Ceremonies

● EDUCATION AND TRAINING

01/06/2018 – 01/12/2020 Damascus, Syria

BACHELORS OF INFORMATION TECHNOLOGY Syrian Virtual University

Website www.svuonline.org

01/04/2007 – 01/10/2009 Damascus, Syria

TITLE OF QUALIFICATION AWARDED Telecommunication Institute

● WORK EXPERIENCE

WELLIRS – AL-SHAREQA, UNITED ARAB EMIRATES

FRONTEND TEAM LEAD / SENIOR FRONTEND DEVELOPER – 01/02/2023 – CURRENT

- Defined and documented website specifications including product features, workflows, and technical requirements.

- Designed site maps, application models, templates, and UI structures aligned with project objectives and user experience standards.
- Developed responsive, high-performance user interfaces using React, tailored for oil industry applications.
- Built and maintained design systems and reusable component libraries to ensure consistency across platforms.
- Implemented authentication, authorization, and security best practices for application access.
- Collaborated with product managers, designers, and business stakeholders to translate requirements into scalable solutions.
- Led a frontend development team by assigning tasks, reviewing code, and ensuring adherence to best practices.
- Conducted code reviews, mentoring, and technical guidance to improve team performance and code quality.
- Coordinated cross-functional efforts with backend teams to ensure seamless API integration and end-to-end delivery.
- Championed performance optimization, scalability improvements, and UI/UX consistency across applications.
- Facilitated Agile ceremonies (sprint planning, stand-ups, retrospectives) and tracked progress to meet project deadlines.
- Resolved complex bugs, usability issues, and customer-reported problems by providing root cause analysis and technical fixes.

KASKADE FINANCE - SOFTWARE DEVELOPMENT – DUBAI, UNITED ARAB EMIRATES

FULLSTACK DEVELOPER – 01/06/2022 – 01/01/2023

Frontend Development (React.js):

- Built and optimized responsive interfaces for a DeFi staking and rewards platform, integrating wallet connections and real-time on-chain data for end users.
- Integrated dynamic dashboards and interactive components for a seamless user experience.

Backend Development (Node.js, NestJS):

- Designed and implemented scalable APIs and Discord bot services.
- Developed automation features for community engagement and platform notifications.

Database Management (Supabase / PostgreSQL):

- Modeled and managed database schemas supporting DeFi staking rewards, user data, and cross-chain liquidity for a decentralized incentivization platform.
- Implemented efficient query handling and real-time data syncing between services.

SPICYFI GMBH – SWITZERLAND

REACT & NODEJS – 01/12/2021 – 01/05/2022

- Built and maintained a full React Web3 game platform, including wallet integration and on-chain interaction via ethers.js/web3.js.
- Delivered a high-performance SPA with React & Redux, improving speed and usability.
- Designed and integrated RESTful APIs with backend databases.
- Developed responsive web apps using React, Next.js, and Node.js.
- Implemented reusable front-end components and scalable features.
- Integrated backend services and APIs with Node.js.
- Optimized applications for performance, scalability, and cross-browser compatibility.
- Collaborated with designers and backend engineers to deliver UI/UX designs.
- Conducted code reviews, pair programming, and provided improvement feedback.
- Utilized Git for version control and team collaboration.
- Worked in Agile teams, following best practices and delivering iterative features.
- Researched and applied emerging technologies to enhance development workflows.
- Maintained and enhanced existing web applications with new features.

WEALTHFACE L.L.C. – DUBAI, UNITED ARAB EMIRATES

MOBILE APPS AND WEB DEVELOPER – 01/04/2020 – 01/12/2021

- Designed and implemented data architectures to support targeted customer analytics.
- Built and managed a React Native trading & investment app from concept to deployment.
- Led website development projects from initial design to completion.
- Developed and maintained iOS & Android mobile apps with robust functionality.
- Created responsive web applications with clean, efficient, and scalable code.
- Integrated RESTful APIs and third-party services into mobile and web platforms.
- Collaborated with cross-functional teams to define requirements and deliver project plans.
- Conducted testing, debugging, and optimization for performance, scalability, and security.
- Implemented push notifications and real-time data synchronization for mobile apps.
- Delivered high-quality products through Agile methodologies and close collaboration with designers and product managers.
- Provided client training on managing website and mobile app CMS tools.

● LANGUAGE SKILLS

Mother tongue(s): ARABIC

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B1	B2	B2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

● SOFT SKILLS

Organization & Multitasking, Adaptability in Fast-Paced Environments, Problem-Solving & Root Cause Analysis, Clear Cross-Functional Communication, Ownership & Accountability, Continuous Learning
